3D Modeling & Texturing

Savannah College of Art and Design
Junior Student-Athlete (Golf)
B.F.A 3D Technical Animation - In progress

Experience

○ Prop Texturing - Holly Mole-y Student Film

January 2025

- Collaborated closely with the art team to develop unique, stylized textures for 4+ scene props, ensuring each piece contributed to the overall aesthetic vision and storytelling of the project.

○ Prop Modeling - Xolo Student Video Game

September 2024

- Played a key role as a 3D modeler by crafting 3+ distinct props, each designed to enrich the game's visual narrative and contribute to its vibrant world. Collaborated closely with the art team to ensure every model aligned with the overarching creative vision.

○ Environment Artist - Bad News Student Short Film

April 2024

- Embraced creative challenges as a 3D environment artist by meticulously designing a detailed kitchen set, ensuring it harmonized with the project's artistic vision and enriched the overall atmosphere.

○ Prop Modeling - Grocery Island Student Short Film

May 2024

- As a 3D prop modeler for the student film, I embraced the challenge of creating realistic organic props, ensuring each piece added to the film's natural and immersive atmosphere.

○ Prop Modeling and Texturing - Dahlia Student Film

September 2023

- As a 3D prop artist for the student film "Dahlia", I poured my creativity into crafting a nightstand and a record player, collaborating with the film's art direction team to ensure the nightstand and record player complemented the visual storytelling, aiming to enhance the film's emotional resonance and authenticity.
